25X1

1. A large six-story modern building erected at 2 Calea Transilvania, Bucharest, by Construction Enterprise No. 2 of the Ministry of Construction, was finished in June 1950. This work was done for the Comitetul de Radiodificare si Radiodifuziune, which is a state institution controlled directly by the Council of Ministers. The cost is estimated at 36 million lei, which sum includes the cost of extensions to a building at 108 Calea Stirbei-Voda which was later taken over by the Ministry of Armed Forces.

2. Apparatus installed in the building, includes:

25X1

a. One electric generator serving as power source for the building in addition to the municipal power source.

b. One complete frequency-testing installation with the aid of which the frequencies of broadcasts could be tested and adjusted if necessary.

25X1

3. Nominally the whole sixth floor is reserved for the frequency testing work, which however occupies only one room. The remaining rooms of the sixth floor are occupied by a multiple-wave broadcasting station, probably imported belonging to the Securitatea. The multiple-wave station comprises apparatus with mobile aerials which can be taken out on the large terrace stretching along the whole front of the building. This instrument has a rectangular dial which folds in two.

25X1

it is strictly forbidden to enter the sixth floor.

25X1

a. The station is actually used to jam broadcasts.

25X1

b. On the same floor there is also a military transmission station using a 15-meter wave length and a fixed aerial.
